The Collection on Palmetto

Museum of
antique
automobiles and
engines. Beauty
and innovation
realized.

The first 15 years of the automobile would take us from an isolated existence to give folks the independence and freedom to be fully interconnected. Within a single generation life went from 6 to 60 MPH!

The antique automobiles of The Collection on Palmetto date from 1886 to 1952, with special attention paid to the Brass Era, from 1896-1969. In no other era of automotive history did technology develop as rapidly.
